Hi There!
I specialize in driving growth through the intersection of performance marketing and AI.

At AdSparkx, I work on campaigns that demand both scale and precision — blending creative testing, data-driven funnels, and automation workflows. Over the past 6+ years, I've seen how businesses win when strategy and execution operate in sync:

My approach has always been about clarity and impact: designing growth processes that are both creative and measurable.

As I continue building expertise, my focus remains on helping brands navigate the changing landscape of performance + AI, and shaping how growth systems evolve in the years ahead.
